EDUCATION

•Bachelor of Technology in Computer Science and Engineering

Marathwada Mitra Mandal's College of Engineering, Pune

2022–2026

EXPERIENCE

•A Consultancy, Pune

Jan 2024 – Mar 2024

Frontend Developer

Full-Time

- Developed cross-platform mobile applications using Flutter and contributed to React-based web development by building reusable UI components and resolving functional issues.
- Designed user flows, wireframes, and high-fidelity prototypes in Figma to improve development clarity and UI consistency.
- Integrated REST APIs, performed debugging, and executed functional testing to enhance product stability.
- Collaborated through Git and GitHub using branches, pull requests, and structured code reviews.

•IoGenesis Solutions

Apr 2024 – Present

Mobile App Developer

Freelance (Ongoing)

- **E-Bell Smart Alarm System (Buzzera)** — A Flutter app designed to control a Wi-Fi-enabled IoT bell system for scheduling alarms, uploading custom sound files, and managing reminders over a local network.
- Built custom date/time pickers, repeat schedules, audio file handling, and real-time verification using direct REST communication with the embedded IoT device.

PROJECTS

• Photocopy Printing Automation Platform (Clone)

Flutter • Firebase • C++ Native

Full-stack Flutter ecosystem automating xerox shop workflow

- Developed customer-facing Android app for file uploads, live chat, and printing preferences, and a desktop companion app for shop owners.
- Implemented real-time file transfer, live status updates, and automatic printer routing using Firebase Firestore and a custom native C++ plugin.

• SkillSync — Video Streaming Platform

Flutter • Agora SDK • Firebase

Cross-platform live video communication application

- Integrated Firebase Authentication, Cloud Firestore, and Storage for user management and scalable data handling.
- Built real-time video streaming functionality using the Agora SDK with low-latency performance.

• AI-Powered Resume Analyzer

React.js • Puter.js AI • Tailwind CSS

Web application for ATS scoring and keyword optimization

- Implemented ATS score calculation, keyword extraction, and personalized improvement suggestions powered by Puter.js AI.
- Designed responsive UI with Zustand state management and drag-and-drop resume upload.

• Advanced 3D & Animation-Driven Websites

React • Three.js • GSAP • Tailwind CSS

High-performance interactive web experiences

- **MacBook Pro 3D Showcase** — Apple-style landing page featuring a 3D product model with realistic lighting, scroll-triggered GSAP animations, text masking, and seamless transitions. [→ Live Demo](#)
- **Drift Academy** — Automotive-themed interactive website using Locomotive Scroll, parallax effects, video backgrounds, and custom cursor interactions. [→ Live Demo](#)

TECHNICAL SKILLS AND INTERESTS

Languages: Dart, JavaScript, Python, HTML/CSS

Frameworks: Flutter, React.js, React Native

Libraries/Tools: Zustand, Three.js, GSAP, Pub.dev, Figma, VS Code, Git, GitHub

Cloud/Databases: Firebase, Supabase, NeonDB

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object-Oriented Programming, DBMS, Software Engineering

Areas of Interest: Web Development, Mobile App Development, UI/UX Engineering

Soft Skills: Problem-Solving, Self-Learning, Presentation, Adaptability
